

INCANDESCENT LAMP CHANGERS

RUBBER COVERED FINGERS AND GARTER SPRING		LAMP SIZE	WATTAGE	CAT. NO.
		A-15, -17, -19; G-16-1/2, -18-1/2	15-100	150-CA
		A-19, -21, -23; P-25; PS-25, -30, -35; SL-18**; G-25, -30	25-500; 18 fluorescent*	151-CA
		PS-35, -40; G-40, -48	25-500	152-C
		PS-52; G-48, -64	750-1500 (incandescent)	153-C
		T-16, -18, -20	1000-1500 (incandescent); 400-1000 (mercury)	154-C
		R-52, -57	500-1000 (incandescent flood); 450-750 (mercury)	155-C
		R-30, -40; PAR-30, -36, -38; ER-30, -40	50-500 (incandescent); 100-175 (mercury)	156-C
		E-37; BT-37, -46; ED-37	400-700 (mercury); 400-1000 (metal halide)	158-C
		R-60	750 (incandescent); 400 (mercury flood)	159-C
		E-21, -23, -23-1/2, -25, -28; ED-23-1/2, -28; BT-28	75-250 (mercury); 175-400 (metal halide); 50-1000 (sodium)	161-C
		E-17, -18; ED-17, -18; B-17	50 (mercury); 35-400 (sodium); 70-175 (metal halide)	163-C

Lightweight for ease of use and convenience. Insulated to help protect against shock. Change lamps up to 25 foot heights.

Jointed angle adapter for easy removal of horizontally or angle mounted lamps included. Use with small headed units only. May not accommodate weight of greater wattage lamps.

*Lamp size, not wattage, determines proper changer. **Not for use with angle adapter.

DURABLE RUBBER SUCTION CUPS		LAMP SIZE	WATTAGE	CAT. NO.
		R-40, -52; RB-52	75-1000 (incandescent spot/flood); 100-400 (mercury)	157-C
		PAR-30, -36, -38	25-150 (incandescent); 75-100 (mercury)	162-C
		R-20; -30; ER-30; PAR-20	30-75 (incandescent)	166-C

- Change lamps where space surrounding lamp is limited
- Made of durable synthetic rubber
- Safely change lamps up to 25 foot heights

Lamp size, not wattage, determines changer to be used. Use on smooth surface bulbs only.

ACCESSORIES AND REPLACEMENT PARTS

160-P		DESCRIPTION	CAT. NO.
	200	Interchangeable, wood insulated, steel pole, 5' sections	160-P
		Broken lamp base remover for standard and mogul lamp bases	200

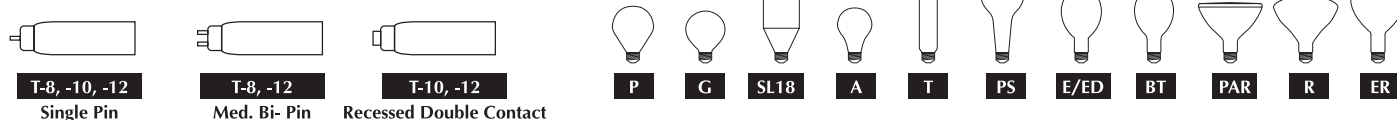

Pole
For use with incandescent lamp changers, 5' interchangeable pole sections lock together with spring-loaded buttons

Broken Base Remover
Safely removes base of broken lamps & catches fragments

FLUORESCENT LAMP CHANGERS

174	CHANGER DESCRIPTION	CAT. NO.	ACCESSORIES/PARTS	CAT. NO.
Fluorescent Lamp Changers • Models for spring loaded, Bi-pin, Single pin or recessed double contact lamps • Allows for safely changing lamps up to 18 foot heights	Complete changer unit for up to 1-1/2" diameter, 4' lamps that require 90 deg. rotation or axial movement. Includes changer head, four zinc-plated steel pole sections each 24" long, and starter changer. For T-8, T-10, T-12 single pin, T-8, T-12 Med. Bi-pin, T-10, T-12 recessed double contact.	174	Zinc-plated 24" steel pole section for 174	170-P
			Zinc-plated steel changer head only for 174	171-C
			Aluminum starter changer only for 174	173-S
	Complete changer unit for 1 1/2" diameter, spring loaded lamps up to 8'. Includes changer head and 2-section alum, telescoping pole extending to 12-1/2".	184	Fluorescent changer pull cord only for 174	01540
			Yellow drivers, five clips and speed nuts for 184	5274-1743

LAMP IDENTIFICATION

Lamp identification for accommodation with fluorescent lamp changers.
