

COMPACT METALARC® and COMPACT SUPER METALARC® Reduced Outer Jacket Metal Halide Lamps

COMPACT METALARC® 175, 250, 400 & 1000 watt lamps and COMPACT SUPER METALARC® 400 watt lamps provide increased system efficiency, due to a smaller outer jacket, and superior METALARC performance.

COMPACT METALARC lamps are available in smaller outer jacket sizes to operate in a reduced fixture profile and to increase system efficiency. The reduced bulb diameter allows the fixture designer to locate the lamp arc tube closer to the reflector, thereby increasing fixture efficiency. The broad lamp selection allows the user to specify the size fixture for various wattage lamps due to the reduced envelope size.

Key Features & Benefits

- Smaller, more versatile luminaires
- Lower installation costs
- Increased design flexibility
- Increased system efficiency
- Broad lamp selection
- Appealing, natural color
- Superior color rendering
- Superior METALARC performance
- Extremely energy efficient
- Available in universal, horizontal, or vertical operating positions

Product Offering

Lamp	Wattage	Finish	Bulb
M175/U/MED	175	Clear/coated	E17
MP175/BU-ONLY/MED	175	Clear	E17
M250/U/ET-18	250	Clear	ET18
M400/U/BT-28	400	Clear/coated	BT28
M400/U/ET-18	400	Clear	ET18
MS400/BU-ONLY	400	Clear	BT28
MS400/HOR	400	Clear/coated	BT28
M1000/U/BT-37	1000	Clear	BT37

Application Information

Applications

- Ambient lighting for industrial, commercial and retail installations
- Canopy lighting
- Flood lighting
- Parking lots
- Security lighting

Application Notes

1. M250/U, M400/U, M400/C/U and M1000/U are for use in universal burning positions. These lamps operate in standard HID mogul sockets.
2. M175/U/MED and M175/C/U/MED are for use in universal positions. The MP175/BU-ONLY/MED lamp has shrouded PRO-TECH technology allowing for safe use in open fixtures. These lamps operate in medium sockets.
3. All lamps, with the exception of MP175/BU-ONLY/MED, are designed for use in enclosed fixtures only.
4. MS400/HOR and MS400/C/HOR are for use in the horizontal position only. These lamps operate in position oriented mogul (POM) sockets.
5. MS400/BU-ONLY is for base-up applications only and operates in standard HID mogul sockets.

Ballast Information

COMPACT METALARC lamps operate on the same ANSI ballasts as the standard metal halide lamps they replace.

WARNING: This lamp can cause serious skin burn and eye inflammation from shortwave Ultraviolet radiation if the outer envelope of the lamp is broken or punctured. Do not use where people will remain for more than a few minutes unless adequate shielding or other safety precautions are used. Lamps that will automatically extinguish when the outer envelope is broken or punctured are commercially available.
